Group # 1 Skill Builder 9 Wave 3 Self-Assessment

Group # 1 consists of five group members. It is necessary to emphasize that four group members continue to work together towards the completion of our group project. Based on Skill Builder 5 Wave 1 and Skill Builder 7 Wave 2, the most interesting aspect of Skill Builder 9 Wave 3 (this project) outcome, was for all of the group members to record information in our [Skill Builder 9 Wave 3 Group 1 Grid](https://docs.google.com/spreadsheets/d/1HOt7NiS6KM1nkNHbPNEnzVbO51Y683ubFaHo5rB-A/edit#gid=0) (https://docs.google.com/spreadsheets/d/1HOt7NiS6KM1nkNHbPNEnzVbO51Y683ubFaHo5rB-A/edit#gid=0). This aspect of the project appeared to be challenging for some group members. Conversely, the weakest aspect of our project outcome was to get all group members to record their information in our [Skill Builder 5 Wave 2 Group 1 Grid](#) . Debra's contributed her information and it was missing from the Skill Builder 9 Wave 3 Grid. However, I stated in the group discussion area that we must not delete group members' information from the grid. Despite the challenges, we work together to complete our individual task in a timely manner. It is also imperative for me to re-emphasize that four out of five group members participated very diligently in the Third Wave Project.

My team members and I will continue to work on the other assignments of our group project, with the continuous support of our instructor. We have used Google docs, emails and our study group discussion areas to communicate. Apart from Google docs area with our grid, ninety-eight percent of our communication was done in our study group area. There were no encumbrances that hinder our group communication, because all challenging issues were solved very timely, by student-to-student and instructor-to-student. I will therefore admit that I am indeed having a deeper understanding OMDE 601 9040 Foundations of Distance Education & E-learning (2152) course, which sustains the course objectives in the syllabus. Hence, I will continue to work together with my team members to uphold the purpose of our group grid.
